

MA IN SOCIAL WORK (TAUGHT IN BULGARIAN)

Brief presentation of the program: The program is the result of a long collaboration with universities in Europe and the U.S. in the field of social work with clinical cases and families. There are two profiles of specialization. The first is in psychoanalytic theory and engaging customers through relationships with them. In the second approaching the family is done from the perspective of systemic family therapy. Studying at the program is closely linked to work with clients under supervision and participate in weekly clinical seminar. The program is suitable for social workers who want to specialize in the case work in the community and in institutions.
