

## System Administrator

Found in 2020 and still thriving in 2021, Red Tape Solutions Ltd. is a fast developing and successful company. We provide our clients with high quality financial services. How do we do it? – With humble spirit and inspiring atmosphere!

Despite the Covid-19 pandemic, our team is expanding constantly and currently we are looking for an experienced System Administrator to join a dynamic and fast-paced environment at our offices and work with cross-functional teams to design, build and roll-out products that deliver the company's vision and strategy.

### Responsibilities:

- Maintain and enhance existing production environments;
- Help secure and harden mission critical infrastructure;
- Build multi-region zero-downtime software deployment facilities;
- Create and maintain documentation;
- Manage company's networks.

### We offer you:

- Attractive remuneration and social package;
- Stable fixed salary + competitive commission;
- Theoretical and practice training;
- Free snacks and beverages;
- Team buildings;
- Multisport card;
- Various daily and weekly bonuses;
- Career development within the company.

### Requirements:

- Knowledge of webserver security, networking and firewalls;
- Experience in server provisioning and automation via Ansible, Vagrant, Docker or similar procedures;
- Experience in scale-out system design, deployment of new technologies and zero-downtime system modifications, autoscaling and load balancing;
- Experience with Monitoring: Grafana, OMD (Nagios, Thruk), Cacti, NewRelic;
- Knowledge of Cloud Infrastructure: AWS, AWS-Cli, DO User data - an advantage;
- Knowledge of zero-downtime deployment procedures and software, software versioning;
- Knowledge of automated deployment tools and procedures.

Please send your CV in English.
