

Mobile App Software Developer

Location: Sofia, Bulgaria

Your new workplace:

We are a global technology company, with offices in Bulgaria and the USA, which focuses on creating and implementing innovative IoT solutions for the security industry. We pride ourselves on best-in-class engineering capabilities that allow us to bring the highest value of products at the most affordable price to our clients. Our footprint is spread to 30+ countries on 5 continents, serving over 5000 businesses and impacting the daily lives of more than 1 million end users.

Your new role:

As a Mobile App Developer, you will build, maintain, optimize and develop iOS and Android proprietary mobile applications.

You shall be able to collaborate openly with members of all company departments.

Responsibilities:

- Develop and deploy mobile application software for iOS and Android across range of devices;
- Code review and pair programming;
- Improve the design and performance of the existing code;
- Work with Version Control System (GitHub);
- Work with a task-based approach in an agile environment (Scrum);
- Maintain and develop integrations with third-party services (Amazon Alexa, Google Home, etc.).

Requirements:

- Bachelor/Master in Computer Science, Informatics or equivalent;
- Good understanding of iOS SDK, XCode and Android Studio;
- Experience in Java, Kotlin or Swift;
- Advantage is an experience in AppStore and Play Store release process, plus good understanding of back-end;
- Must be a self-starter, able to work productively without close supervision.

Our perfect match:

- Honest: Personal integrity is a must. Consistent and uncompromising adherence to strong moral and ethical principles and values;
- Team player: Working collaboratively with others to achieve organizational goals;
- Customer-focused: Striving for service excellence, regarding both internal and external duties;
- Proactive and internally driven: Dealing with situations proactively and persistently, being accountable, seizing opportunities to pre-emptively resolve issues;
- Results-oriented: Focusing efforts on achieving high quality results, consistent with the organization's standards;
- Skilful communicator and listener: Listening and communicating openly, honestly and respectfully with different audiences, promoting dialogue and building consensus.
