

Looking for a new colleague to join European National Panels

We are a technology company working in market research industry. For our clients (research agencies, consultants, end clients) we collect online data (questionnaires) on our own panels. Currently we operate in 5 countries (CZ, SK, HU, PL, BG) with a total of 150,000 members, we are opening Romania in 2023. Owned by 3 top research agencies in CZ - NMS, STEM/MARK and Nielsen, we celebrated 10 years in business and continue to grow at a rapid pace.

We would like to find self-driven, smart, responsible individual who would be in dual position **on Bulgarian market – project manager + business developer**

We require

- At least university bachelor degree in sociology/economics, or experience in the field is an advantage, but not necessary
- Fluent in verbal / written English and Bulgarian; knowledge of Czech, Slovak or Romanian language is a benefit
- Very good knowledge of MS Office (Excel)
- Additional IT experience such as working with SQL, PBI etc. is an extra bonus for us

We offer

- Basic salary based on hourly project management attendance
- Personal bonus on business development and new business (10% of revenues)
- Remote position based in Bulgaria or local in CZ Prague office
- Work in a small friendly international team

Project manager's role

First you would get intensive training on our own software, company processes, pricing structure, panel structure. Usually our internal communication language is English. After successful training you would be performing in these areas: Project preparation, Project implementation, Invoicing, Remuneration.

Business development role?

We would like to grow our business in Bulgaria, therefore we need more clients, more projects, higher revenues. In this role you would communicate not only with the existing clients, but primarily you would be approaching a new potential clients via phone, mail, social networks.

To apply, please send your up-to-date CV at burlakov@nationalpanel.eu
