

Junior C/C++ Developer

The company is a leading Technology Solutions Provider and Systems Integrator in Southeastern Europe, offering end-to-end solutions for the Banking, Retail, and Telecommunications industries.

We are looking for a Junior C/C++ Software Developer to join our team and participate in the design, development, and maintenance of software.

We always invest in our people's growth, and we have achieved to create and sustain a supportive environment, which embraces diversity and encourages openness and teamwork.

With us, you will have the opportunity to work on innovative projects and technologies, in a fast-paced international business environment, while developing your skills and competencies to achieve your personal goals and career aspirations.

Main responsibilities:

- Design, development, and maintenance of software.
- Develop and maintain C++ projects.
- Implementing new customer requirements.
- Code review and bug fixing.

Requirements:

- Experience and knowledge in C++.
- Java knowledge will be considered a strong advantage.
- Analytical and fast learning skills.

The company offers:

- Dynamic and challenging job in premium professional environment.
- Trainings and support from highly professional team.
- Flexible working hours and work from home opportunity.
- Supplementary health insurance, meal vouchers, additional benefits.
- Friendly team environment.

If you are interested in working with us, please send your CV to b.asenova@printecgroup.com.

The personal data provided by you will be processed for the purposes of the recruitment process. The company takes the responsibility to handle, use and store your personal data, ensuring its protection.

Thank you for your interest!
