

Data Analyst Intern

Dynamo Software, Inc. is a software development company, a leader in CRM systems for financial institutions. Our products are used by over 350 of the largest and most renowned investment institutions in the world such as Goldman Sachs, Bank of America and J.P. Morgan. The company has been growing constantly since its inception in 1998, driven by its Dynamo product line.

We are looking for energetic and highly motivated trainee to join our Data team for 2-Month Internship.

What is the role:

- Read financial reports and extract relevant information from them
- Review, organize, and enter financial data into pre-defined templates
- Participate in improving the data gathering process

Who is the person:

- Student in Finance, Accounting, Business or similar
- The position does not require previous working experience and training would be provided
- Advanced MS Excel skills (V-Lookups, Pivot tables, macro recording, etc.)
- Experience with MS Access and query design in SQL would be an advantage
- Excellent analytical skills, attention to detail and passion for data processing and analysis
- Genuine interest in financial markets and instruments
- English language proficiency

What we offer:

- Unique opportunity to gain experience in complex business projects and work on new business opportunities in an exciting and fast-paced industry
- Challenging assignment providing freedom in daily work
- Excellent work environment and motivating company culture

If you are interested, please send us your CV in English at: stonova@dynamosoftware.com

Deadline: 15 July 2017. We will carefully review each application, but will get back to shortlisted candidates only.
