

Business Intelligence & Commercial Analytics Trainee – 3 months

Our commitment to you:

- Experience real on-the job learning with a leading player in one of the most dynamic sectors of the Healthcare industry.
- Join a diverse team working in a truly international environment – our business unit covers 6 markets.
- We will challenge you intellectually to find solutions which have real impact on our business.
- Competitive remuneration and flexible schedule (4h/day).

Why we are looking for you: We value your passion for numbers and ability to combine large data sets from various sources into one platform that would help us make strategic and tactical business decisions. You have the technical knowledge and capacity to make our reporting faster and visually user friendly.

We have few specific tasks for you:

1. Design and create the solution of how to integrate all our databases under Microsoft Power BI platform.
2. Understand the need for reporting and tracking requirements of our Marketing, Supply Chain, Finance and Sales teams and integrate them into easy to use trackers.
3. Support and maintain databases so they properly function (i.e., security, recovery, backup & reorganizations);

If you are...:

- Student in last year of studies or recently graduated in Computer sciences / Finance or other related disciplines.
- Have knowledge or projects experience in Statistics & Business Analytics (it would be a strong advantage).
- Passionate about analytics & data, fluency in English with mid-to high level of proficiency in Excel.
- Active, Ambitious, Edgy, Committed, Brave, Good team player and Ready for challenges we will be happy to receive your application.
