

InternStellar Program

by *HP Bulgaria*

We will use our knowledge and experience to give you a real taste of the most iconic tech company worldwide. We will teach you how to create, execute and celebrate business wins. By joining the team, you will play a role in business strategy, analysis, and operations.

Once you begin your journey, you will be going through an onboarding phase and two game levels:

- Onboarding phase: Taking classroom theory into practice, you will start learning about the business, our secret language, and strategies, and getting to know our amazing people. Your own opinion will count.
- Level 1 (up to the 6th month): Then you will be given your individual project and play on the battlefield straight away. Of course, we will help you pick-up and conquer challenges.
- Should you show great results at level 1, your contract might be extended for another six months, leading you to Level 2 (Month 7-12): This will be your time to shine and showcase all you have learned so far. Expect to jump-over a raised bar.

NB! Please note that the upcoming **6th edition** of the Internship Program positions within the following teams/areas will be offered:

- Finance
- Telecom operations
- Supplies operations
- Customer Engagement Center
- Business Analysis
- Device-as-a-Service (DaaS) business and more

So far, HP Inc Bulgaria has given the chance to more than 70 young talents to be part of the program many of whom decided to continue their career journey with us.

During your placement at HP Inc, your manager/mentor will support you with your development, setting up goals, providing you with feedback on your performance and guiding you on business matters. You will have access to 10, 000+ learning nuggets to sharpen your business acumen and professional skills. Beyond that, you will train, practice and have fun, alongside your **#SuperIntern** peers, HP professionals, learning also from senior managers who can help you take your career forward.

Aside from that, you will need to work closely with your **#SuperIntern** peers, on the planning and execution of an extraordinary Internal event that each wave of interns organizes for their co-workers in Sofia. And believe us - we do look forward to seeing you demonstrating your superpowers!
