

WE ARE HIRING JUNIOR JAVA TRAINEES

Hey, you! We're Accenture. Our team is working with the biggest companies all over the world, with more than 469,000 people serving clients in more than 120 countries, we drive innovation to improve the way the world works and lives. We're really happy to inform you that in May 2019, we will be launching our new Junior Java Training Program. Wanna know more?

Our Training Program Includes:

- **3-4 weeks of full-time, intensive training** with a certified trainer on Java, Databases, Web services, Continuous Integration and much more...
- **Focus on gaining practical knowledge with a little bit of theory**, because we know how important it is and...
- **Certificate for successful completion of the training** so you can use it in the future, plus...
- **Standard labor contract and all social packages and benefits** of the company, because we believe in you.

YOUR ROLE WILL BE:

During the first 3 weeks you will participate in an intensive training with various tasks and work closely with motivated people. Isn't that great?

After the program you will:

- Participate in trainings to improve your knowledge and experience in the fields of software development and e-Commerce.
- Work on resolving problems and issues together with our development team on live projects delivered by the company.
- Participate in the implementation of the various company projects working closely with more senior and helpful colleagues.
- Take part in the software development lifecycle: construction, peer reviews, documentation, testing, and deployment

WE REQUIRE:

Knowledge (and possibly experience) in:

- Java
- Object Oriented programming and design
- Algorithms and data structures
- Understanding in HTML, CSS, XML
- IDE Eclipse/IntelliJ
- Version control systems (SVN, GIT)

All applications should be received by **01 May 2019**. For questions, please contact Tina Iordanova: tina.f.iordanova@accenture.com; 0879 097 029
