

Junior Information Risk Management (IRM) Specialist

We are inviting ambitious and forward thinking graduates to join our growing Audit & Assurance team and get on an accelerated career path.

In your first year in this role you will participate in audit, assurance and advisory engagements for large international and local clients and will build strong professional knowledge through:

- Gaining a wide range of industry-specific and information systems knowledge
- Testing the design and implementation of general IT controls and IT-dependent business processes according to established standards and best practices
- Documenting technology infrastructure risks, controls and findings
- Developing strong relationships with the audit teams and audit clients

To be up to the challenge you should preferably have:

- University degree in the area of Information Technology, Finance, Control, Audit, Business Administration or a related discipline
- Strong interest in analyzing information systems design and operation
- Self-motivation and desire to learn and develop
- Working level of written and verbal communication skills in English

What you get is:

- Unique, open and friendly culture
- Various company-organised team events
- Opportunity to work on engagements for some of the largest companies in Bulgaria
- Support for professional certification
- Competitive remuneration package & additional benefits

If you are interested in becoming a part of our team, please apply at kpmg.com/bg/careers.

Your application package will be treated with strict confidentiality. Only shortlisted applicants will be contacted.
