

3D Quality Assurance Specialist (V-Ray for SketchUp & Rhino)

Chaos Group is a worldwide leader in computer graphics. Our technology helps artists and designers create photoreal imagery and animation for design, television, and feature films. We're shaping the future of creative storytelling and design with our research and development in material scanning and virtual reality. V-Ray, our Academy Award-winning renderer, is at the heart of our product portfolio, and works seamlessly within leading 3D software.

Main responsibilities:

- Work with the Development, QA and Documentations teams on the quality of our products;
- Find, analyze and report bugs and problems;
- Test new features and assist in their documentation;
- Advance the development and support of Chaos Group's products and services.

Main requirements:

- General computer proficiency. Expertise in MacOS is a plus;
- Knowledge and experience in working with SketchUp and Rhino;
- Knowledge and experience in photorealistic rendering with V-Ray;
- A reel demonstrating knowledge and experience in 3D applications is a plus;
- Very good command of English;
- Analytical thinking and good communication skills;
- Any experience in scripting is a plus;
- Any personal projects or portfolio is a plus.
