

Rookie to Rockstar Full-stack Intern

DevCamp is a **3-month training program** organized by MentorMate. This is a **full-time opportunity**, designed to provide training on a diversity of **web and mobile technologies** for young people ready to launch their careers in the software development field. Apply to join DevCamp, build new technical skills, prove your software talent and work on real projects in a competitive environment. This could be the beginning of your professional journey as a Software Developer at MentorMate.

Being part of our DevCamp, you will

- Go through intensive 12-week training, starting on 16.03.2020
- **Receive a salary** while you develop your programming skills in this full-time program (Monday-Friday from 10 am to 7 pm)
- Learn and work with various web and mobile technologies - Python, Java, .NET, Swift, JavaScript, HTML, CSS, libraries, and frameworks like Angular, React.js, React Native, Node.js, CocoaTouch, Wordpress, Laravel, Django, Spring
- Be mentored and coached by some of the best MentorMate experts
- Improve your knowledge, skills and yourself
- Complete tasks. Meet new challenges. Work on individual and group projects, using SCRUM methodology
- Prove yourself and become a part of MentorMate team
- Join a culture that emphasizes hard work, leadership and having fun

What do you need to have

- Good understanding of code and algorithms and proof of analytical thinking
- Passion to learn and a drive to work with diverse technologies
- Good communication and teamwork skills
- Eagerness to learn, grow and be challenged
- Ownership of your work
- Proactiveness - ask questions and go beyond what's expected
- Desire to work with clients and to understand their ideas
- Very good level of English

And here's how to apply:

- Send us your application until 23.02.2020
- Complete our application assignment (will be sent additionally)
- Go through an on-site test and interview
