

DevCamp is a 3-month training program organized by MentorMate. This is a full-time opportunity, designed to provide training on a diversity of web and mobile technologies for young people ready to launch their careers in the software development field.

Apply to join DevCamp, build new technical skills, prove your software talent, and work on real projects in a competitive environment. This could be the beginning of your professional journey as a Software Developer at MentorMate.

Being part of our DevCamp, you will

- Go through an intensive 12-week **online** training, starting on **17.08.2020**
- Receive a salary while you develop your programming skills **full time** (Monday-Friday, 10 am–7 pm)
- Learn and work with various **web and mobile** technologies — JavaScript, Python, Java, .NET, Swift, Kotlin, NoSQL (MongoDB) & RDB (PostgreSQL, MySQL), Node.js, HTML, CSS, and libraries and frameworks like React.js, ReactNative, Angular, Vue.js, CocoaTouch, WordPress, Laravel, Django, Spring, SpringBoot, Hibernate, Docker
- Be **mentored and coached** by some of the most highly qualified MentorMate experts
- Improve your knowledge, your skills, and yourself
- Complete tasks. Meet new challenges. Work on individual and group projects using **Scrum**
- Prove yourself and become a part of MentorMate's team
- Join a culture that emphasizes hard work, leadership, and having fun

You need to have

- Good understanding of code and algorithms as well as strong analytical skills
- Passion to learn and a drive to work with diverse technologies
- Good communication and teamwork skills
- Ambition to take ownership of your work
- Proactive approach, asking questions and going beyond what's expected
- Desire to work with clients and to understand their ideas
- Very good English skills

And here's how to apply

- Sign up for the program until 30.07.2020
- After signing up, you'll receive an assignment via email. We expect your solution within 7 days but no later than 31.07.2020
- Successfully completing the assignment, you'll be invited for an **on-site** test in the first week of August
- If you've passed the test, we'll organize an online interview with you in the second week of August
- The best of you will be invited to start the program on 17.08.2020
