

## **Finance Intern - part/full time (12 months fixed term)**

*Are you a last year university student or recent graduate who would like to take his\her first steps within a dynamic clinical research organization? Are you interested in learning fundamental skills to start effectively your career?*

At Thermo Fisher Scientific, you'll discover meaningful work that makes a positive impact on a global scale. Join our colleagues in bringing our Mission to life - enabling our customers to make the world healthier, cleaner and safer. We provide our teams with the resources needed to achieve individual career goals while taking science a step beyond through research, development and delivery of life-changing therapies. With clinical trials conducted in 100+ countries and ongoing development of novel frameworks for clinical research through our PPD clinical research portfolio, our work spans laboratory, digital and decentralized clinical trial services. Your determination to deliver quality and accuracy will improve health outcomes that people and communities depend on – now and in the future.

### **How will you make an impact?**

The 12 months internship in Ops Finance is designed to offer you the opportunity to develop insight into clinical research, master your skills while conducting meaningful work within the team. The program framework is crafted to allow you to grow professionally, learning invaluable skills to help you kick start your career!

### **What you will do?**

On this role you will be primarily engaged across centralized end-to-end processes with focus on quality, consistency and control point across data entries and systems. Additionally, by leveraging Microsoft tools such as Excel, SharePoint and others our team focuses on efficiency and optimization where possible.)

As part of the FP&A Finance Team (part of our Global FP&A) you will work closely as a team, providing support and ideas for day to day activities. Your engagement and level of dedication will ensure that our project teams would receive the administrative and technical support they need. You will have a mentor who will help you navigate through our organization and processes and receive the best support, which will ensure you are on your way to reaching your goals.

Being part of Ops Finance you will be introduced to many diverse parts of the company and to other interns across Europe. You will have a wide portfolio of exciting tasks to complete. Plus test your natural curiosity in providing administrative and technical support to the team proactively, educating yourself about the clinical research industry and master your skills to measure your business progress.

### **How will you get here?**
